Dermatome skin grafting system

GD SERIES
The new slimline and ergonomically designed *GD Series* dermatome from De Soutter Medical produces consistent, uniform skin grafts time after time. The smooth high speed cutting action ensures an almost effortless and vibration free procedure. The GD-113 dermatome head is designed to be used with the CM2 controller system. Alternatively, the head with its integral E coupling allows it to be used with other De Soutter Medical handpieces, for instance, EPV pneumatic and ECV electric motors. Please ask for further details.

Cut thicknesses are easily selected and constantly maintained using the calibrated depth gauge. Skin grafts from 0.05 mm to 1.00 mm are adjustable in 0.1 mm increments.

Accurately controlled graft widths of 73 mm, 48 mm and 23 mm are readily achieved by fitting the appropriate easy-fit sole plate.

Stericut precision ground, double facet, ultra sharp blades provide accurate and consistent cutting performance whilst permitting very thin skin grafting. Blades are supplied sterile packed (5 per box). The GD-113 dermatome head enables quick and safe blade replacement.
System Specification

Dermatome Specification

<table>
<thead>
<tr>
<th>Cutting width mm</th>
<th>Cutting thickness range mm</th>
<th>Operating speed range rpm</th>
<th>Weight kg</th>
</tr>
</thead>
<tbody>
<tr>
<td>73</td>
<td>0.05 - 1.00</td>
<td>2000 - 15000</td>
<td>0.28</td>
</tr>
</tbody>
</table>

The dermatome head is supplied with a 73 mm sole plate as standard. Optional sole plates:
- 48 mm cutting width - Order code 17260
- 23 mm cutting width - Order code 17340

Micro Motor and Power Supply

The dermatome head fits quickly onto the universal micro motor which is powered by the variable speed CM2 controller. The motor can be controlled either by the footswitch or directly from the controller itself.

Please specify voltage and plug configuration when ordering.

Power supply specification

<table>
<thead>
<tr>
<th>Input voltage: 230/115/100 50-60Hz</th>
</tr>
</thead>
<tbody>
<tr>
<td>Power:</td>
</tr>
<tr>
<td>Dimensions: 181 x 101 x 119 mm</td>
</tr>
<tr>
<td>Weight:</td>
</tr>
<tr>
<td>1.79/0.12 kg controller/motor</td>
</tr>
</tbody>
</table>

Sterilisation Container

This purpose designed compatible delivery system will ensure your instruments are maintained in good condition at all times. The container is 100% sterilisable by steam, dry heat ('flash') to 160°C, ethylene oxide (ETO) or gamma irradiation.
